## PROFESSIONAL SUMMARY

Versatile Quality Assurance Tester and Graphic Designer with a strong blend of technical testing and creative design skills. Experienced in executing functional and non-functional tests, validating UI/UX elements, analyzing defects, and ensuring high-quality performance across web and mobile applications. Skilled in test case creation, cross-platform/browser testing, Agile collaboration, and documentation. Bringing a design-oriented advantage, proficient in visual storytelling, layout design, asset optimization, and maintaining design system consistency. Adept in Rive, Adobe Creative Suite, and modern digital production workflows, enabling precise UI validation and user-centered evaluation. Combines analytical problem-solving with creative insight to deliver polished, reliable, and visually consistent digital experiences.
